

ROLLAWAY

b a n n e r s t a n d

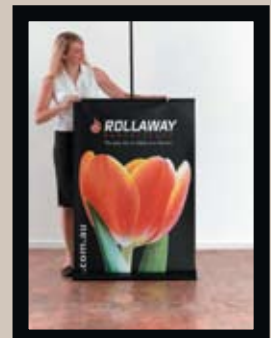

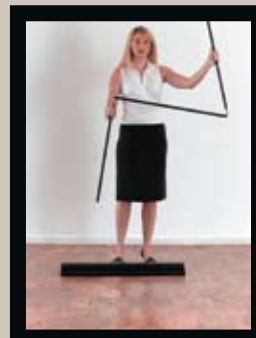

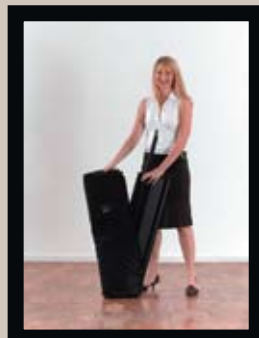

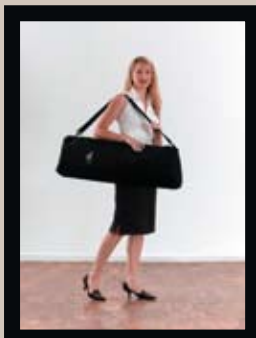

The easy way to display your banners

COMPLETE DISPLAY SOLUTIONS
EMERGENT  DESIGNS

Rollaway is the quick, easy way to display your banners. Ideal for trade shows, conferences, exhibitions and seminars, **Rollaway** relies on a spring roller mechanism which makes setting up as easy as pulling out a venetian blind. When packing, the banner simply rolls away into the stand. The stand is lightweight with the added bonus of securely protecting your banner when not in use. Supplied with a handy carry case, it is extremely easy to store and transport.

Rollaway is designed and manufactured to the highest US standards with clean elegant lines and a robust construction. Banner graphics are digitally produced using colour management processes and high resolution output, giving your message a truly professional look. The graphics on **Rollaway** are also replaceable enabling your investment to be reused over many years.

- Quick and easy to setup
- Lightweight
- Comes in a handy carry case
- Graphics securely protected inside stand
- Robust and elegant stand
- High quality digital graphics

Double sided Rollaway

Double your message with little extra investment

Rollaway now comes double sided, very good value for your display investment and creates new promotional opportunities:

- Display a banner on each side and take advantage of customer traffic from both directions.
- Install 2 different banners and display one or other or both depending on event.
- Invest in a double sided system and leave one side unused, ready for future upgrades.
